Heavy Fire Loss At Carseland

Three Stores and Blacksmith Shop Burned

Breaking out at 7 a.m. to-day (Wednesday) fire took heavy toll of the village of Carseland. Buildings destroyed included Purcell's general store, Stinson's poolroom, Brown's restaurant and confectionery, and Listander's blacksmith shop.

The flames were first noticed by Mr. Woodrow, who was on his way to the school, where he is janitor. They were coming from the roof of the restaurant. He immediately gave the alarm, but as the fire was fanned by a strong west wind little could be done to arrest its progress. The buildings on the other side of the street were only saved by the heavy rain and snow.

Due to the telephone service being interrupted by the fire, details re insurance, etc., are not available.

Music Lovers Meet Visiting Edmonton

STRATHMORE CHORAL SOCIETY FORMED

For some years past it has been the wish of a few music lovers in Strathmore, to organize a non-sectarian, and free-for-all choral society. On Monday evening a meeting was called for this purpose, and although not largely attended, those present were enthusiastic, and nominations for the various offices were proceeded with.

It was decided to call a general meeting on Monday, September 21st, at 8 p.m., in the Memorial Hall Dining Room, when the election of officers will take place, and the first practice will also be held.

A cordial and hearty invitation is given to all ladies and gentlemen interested in good music to attend this meeting, as the first object of the Choral Society will be to give a really high-class concert in aid of the Memorial Hall funds.

Don't forget the date, and please come to the Memorial Hall on Monday next at 8 p.m.

GOOD YIELD OF WHEAT

It is announced that threshing returns on the Provincial Fall Farm at Lettbridge have shown a yield of winter wheat on 33 acres of 50.5 bushels an acre on irrigated land. An experimental plot of Garnet wheat gave 40 bushels to the acre.

Rain and Snow Delay Threshing

Wet Weather Holds Up Crop Delivery.

Heavy rain commenced falling at an early hour this morning, followed by heavy snow throughout the forenoon. This will delay the threshers for at least another week. Rainfall last week totalled .73 inch.

Practically no threshing has been done for the past ten days on account of frequent rains. The stocks had just dried out enough to start threshing on Wednesday morning when heavy rain fell, and continued intermittently till Friday evening.

The weather has caused farmers and threshers considerable extra expense in boarding their reaps, and to the men themselves it means a considerable loss. There is also the possibility of lowering of grade on account of the wet.

The only feature to the good is that it provides moisture for next year's crop.

While the thermometer touched the freezing point on Sunday morning, following the clearing of the weather, no damage from frost has been reported.

The first car of 1925 wheat out of Strathmore was shipped on September 15th by the Robin Hood Elevator. The grower was Johnny Schultz. The grade was number 2, and the weight 63 lbs. to the bushel.

Calgary, Alta.—While Alberta is shipping an increasing quantity of butter to the British and old world markets, the Panama route is only getting part of the trade as shipping facilities are not available. One local firm shipped 336,000 pounds via the Canal a short time ago, but routed 560,000 pounds via Montreal. Alberta is now being sold in equal competition overseas with the best of the Danish and New Zealand products.

School Fair Is Very Successful

Parade and Exhibits Better Than Ever Before

With hundreds of children and their parents present from a radius of several miles, Strathmore District annual School Fair surpassed previous fairs, both in number of exhibits and in quality.

The fair was held yesterday at the school grounds. The parade formed up in the Park at 1:30, and marched through the town to the school ground. The various floats, as was stated by Inspector F. G. Buchanan, in making the awards, showed evidence of originality and industry and the parade as a whole was superior to last year.

Winners in the parade were announced as follows:

1st—Bert's Vale (float entitled "Builders of Canada, showing the various races who had contributed to the upbuilding of this country."

2nd—Strathmore School—Miss Sanford's room (ship design, manned by children in sailor costume, patriotic flags and bunting).

3rd—Orange Valley (two floats with orange trees, children dressed in harmony).

4th—Carseland Public (decorated auto, with grain sheaves, and bunting).

5th—Crowsfoot (children dressed in Klu Klux Klan costumes, with banners "Klunk Klan").

A number of other schools and classes had effective displays. A detailed report of the fair, with prize list, will appear in the next issue of the Standard.

NOMINATING CONVENTION

The nominating convention of Bow River constituency U.F.A. will be held at Calgary on October 1st. E. J. Garland, the present member, will probably be renominated.

The Liberals of the Bow River constituency will meet in Calgary on September 26 to call a candidate. Names already mentioned are those of Joseph Gouge, Drumheller; James McNaughton, Carmangay; and J. Stack, Vulcan.

But-Look Where There's Real Gold!

Journalists Visit Strathmore

Are Shown Over Town, Demonstration Farm and Irrigation Department

For the purpose of seeing conditions in Canada as they really are, a party of a dozen representatives of some of the largest daily newspapers in Great Britain and Ireland have been touring the Dominion for the past two weeks.

On Monday afternoon they arrived in Strathmore by train No. 2. It had been the intention to drive them into the country and show them some of the irrigation structures in the immediate vicinity of Strathmore, but as it appeared that they had been travelling by motor car from 9:30 that morning over rough roads seeing the Bessano dam and visiting the new town south of the Bow River, the country trip was eliminated.

Accordingly, in cars supplied by local citizens, they were driven through the town, past the Memorial Hall and other points of interest, through the irrigation headquarters to the Company's fine second stand of alfalfa, and from there to the Demonstration Farm, where the remainder of the afternoon was spent.

See Farm Stock

Here they were first of all shown some of the Company's Holstein herd, a number of animals in which have registered over 20,000 lbs. of milk per year, and also inspected the creamery and poultry plant. The big idea was being filled with, sunflowers, and considerable interest was shown in this, as well as in the other department of farm work, many questions being asked of Mr. Jones, farm manager, who explained the various departments.

Following their inspection of the farm, the visitors were entertained, through the kindness of Mrs. Jones, to a sumptuous dinner, of home grown produce, chicken, corn, and pie baked among the main items, to which they did just justice.

Welcomes Visitors

Mr. G. H. Hutton, superintendent of Animal Industry and Agriculture branch C.P.R., following the dinner, first of all expressed the thanks of

those present to Mrs. Jones for her hospitality, and said that it gave them all great pleasure to entertain their overseas visitors. The trip through Canada was for the purpose of letting them see what conditions really were in Canada. They had been able to see the harvest in progress during their tour of the West. There were farms in Western Canada which this year would be enabled to pay the cost of their land with the proceeds of one crop. Canada was still the land of opportunity for the enterprising man, and it was very highly regarded by the Company, as one of the best on their lines.

Mr. Thos. E. Wright, President of Strathmore Board of Trade, welcomed the visitors on behalf of the Town of Strathmore. Strathmore was a comparatively young town, but had made considerable development, and he believed that at the present time it was one of the best towns for business in the west. They had not yet got all the modern improvements they would like to have, but they were going forward. During recent years they had greatly improved the appearance of the town by tree planting, etc., and were rather proud of their efforts.

Mr. C. O. Smith, Mayor of the Calgary Herald, on behalf of the newspapermen of Alberta, extended a welcome to the visiting journalists. On this occasion, he believed, they were entertaining the men who did the actual work of the big papers they represented. He trusted that their visit to Canada would prove pleasant, profitable, and instructive.

Visited Strathmore in 1911

Mr. J. F. Chapter, of the Westminster Gazette, replying on behalf of the visitors, said he had to thank them all for their kindness, particularly their hosts.

This was his second visit to Strathmore, his previous one having been in 1911. He was pleased to see here the sort of improvement that he had expected to see, and which he had not seen in the other places he had visited. In the cities it was difficult to visualize the changes unless on the outskirts, but here he could see the actual improvement. Strathmore was very young fourteen years ago, and quite an original experiment of the C.P.R. in setting up this supply farm was in progress. The transformation had been very great indeed since that time. At that time there were extremely few houses and extremely bad roads, and the nearest farms were miles away. He complimented them on the tree growth in the town and on the farms around here.

At the time he was here last there was talk about the backwardness of farmers in planting trees, and he was glad that some farms were now planted to trees. A British farmer would discount the value of any farm which was treeless. Trees had an economical as well as a scenic value.

Personnel of the Party

The party consisted of the following newspapermen: F. A. Benton, Daily Chronicle; John A. Burt, Glasgow Herald; Carl E. Altham, Morning Post; Hugh Martin, Daily News; C. J. Jory, Daily Telegraph; John Sayers, Belfast Telegraph; H. A. Collett, Western Morning News, Plymouth; F. G. R. Peterson, The Times; H. Read, South Wales Daily News; J. F. Chapter, Westminster Gazette; Norman B. Rankin, Special Publicity Agent, Montreal, in charge of the party; John F. Sweeting, Industrial Agent, Winnipeg, accompanying party west.

Those greeting the party at Strathmore included:

Geo. H. Hutton, Superintendent of Animal Industry and Agriculture, C.P.R.; A. S. Dawson, Chief Engineer C.P.R. Dept. Natural Resources; G. H. Jones, manager Strathmore Farm; R. (Continued on another page)

The Strathmore Supply Farm

Interesting Description by Lady Journalist of C.P.R.'s Big Local Farm.

One of the most interesting of the farming operations carried on by the C.P.R., says Missa, Green Ellis, is "Agricultural and Industrial Progress in Canada," is the Strathmore Supply Farm, thirty or forty miles east of Calgary on the main line of the railway. The primary purpose of this place, for which twenty-five hundred acres was set apart, was to ensure for the company's guests in their diners and hotels, the best and freshest cream, butter, eggs, broilers, and such like. All diners out of Calgary are supplied from the Strathmore farm as is also the Palliser Hotel (C.P.R.) in Calgary, and the day of which the mountain hotels open at Banff, Lake Louise, and the Chateau, Strathmore must be prepared to furnish an extra lot of milk. The milk is all from pure-bred cows, the largest herd of pure-bred Holsteins in Canada. While the farm is operated for the purpose of supplying this produce, the commissary department is under no obligation to accept it, so the farm has to compete in quality and service with the open market.

Our hundred thousand dollars worth of business is done annually at this farm and they are now in a position to make greater strides. Due to the very complete system of accounting that has been installed, the farm has been put on a paying basis. By the detailed checking of this system, operations that appear on the surface to be profitable, proved to be really a loss. Cost of crops in every field is accurately computed and the value of a quart of milk is known for every month in the year. There is an official farm record of every animal on the place, and even the chickens that is not prepared to prove that her mother laid more than 200 eggs may as well make up her mind to come to a violent end early in the fall.

Careful Breeding

There are 275 head of Holsteins, not counting this year's crop of a hundred calves. Over one hundred of these cows have completed their Record of Performance tests and twenty-two are under way now. Last year the average production of every cow in the herd, including the two-year-old heifers, was 13,619 pounds of milk. There are twenty-eight twenty-thousand-pound cows in the herd now.

Great care has been taken in the breeding to get uniformity of type and animals that will produce creditable quantities of high quality milk on average feeds. The effort has been to increase the quantity, improve the quality, and reduce the cost. Thirty to fifty young bulls are sold in the year, and everything offered for sale is from a dam with a high record. The C.P.R. is not interested in propagating the poor-to-medium kinds.

The barn equipment is modern and conveniently situated. Adjacent to the dairy barn are four silos with a capacity of over a thousand tons, enough to give the cattle all the ensilage they will eat the year round. While there is a little oil silage used, the bulk of it is sunflowers which grow well in this locality.

Two hundred pure-bred Berkshire and Yorkshire hogs provide a regular income and the poultry department is a profit bearing enterprise in itself. Barred Rocks and S. C. Rhode Island Reds are being bred and they have a big demand for cockerels, chicks, and setting eggs. Seven to eight thousand day-old chicks were sold this year, shipped out as far as the Peace River country in the North. Two hundred cockerels were likewise distributed in all the western provinces and they could not begin to fill the requests for eggs for hatching. Eight hundred eggs from R. O. P. hens were incubated this year.

There is a resident farm manager and houses are supplied for the men. Surrounding the farm building, there has been a generous planting of trees and shrubs which have now grown to a size that makes them an attractive background.

But to the practical mind of Superintendent Hutton, the big thing in connection with the Supply Farm is that in addition to giving the service for which it was intended it has also been put on a sound financial basis. Mr. Hutton has no doubts about farming being a paying proposition in Western Canada. If common sense methods are applied and the expense sheet watched. He believes in using the thing that can be grown on the farm so far as all possible, rather than spending real money for a substitute. "Farmers must keep cost down and production up," says Mr. Hutton. He is then

marketing his labor the year round. No business can keep a man in luxurious idleness seven months of the year."

No New Ford Models

Fort, Ontario—W. R. Campbell, Vice-President and Treasurer of the Ford Motor Company of Canada, Limited, in a statement issued today, following the announcement of the revised Ford bodies and chassis refinements, emphasizes the fact that there are no new Ford Models.

"Bodies for Ford cars have been materially improved," he states, "but the Model 'T' Chassis remains practically the same. There are several important changes in the chassis, but they do not affect the basic design in any way detrimental to the servicing of the half million cars already produced by this Company and now in use in Canada and Overseas territory. The bodies in four types have been completely redesigned and built here to contribute to better appearance, driving and riding comfort. All improvements and refinements are more pronounced than at any time since the

adoption of the Model 'T' Chassis, but they are entirely in accordance with the Company's policy of giving the Public the benefit of every improvement found practical. By preserving the Model 'T' chassis design, the Company safeguards the continued good service to fifty per cent. of Canada's car owners and eighty per cent. of the trucks now in use throughout the Dominion."

New Refunding Loan

Announcement was made in our columns last issue that the Dominion Government has concluded its financial plans for the year by disposing of a new issue of \$75,000,000 fifteen year 4½% bonds through a strong Canadian syndicate, consisting of Wood, Gundy & Company, Dominion Securities Corporation, A. E. Ames & Company, Limited, and the National City Company, Limited. The bonds are being offered to the public through practically every bond dealer and stock broker in Canada, and through the chartered banks.

Because of the success of the 1923

and 1924 Refunding Loans, it is felt in financial circles that the present issue will be quickly snapped up. Investors who were fortunate enough to have purchased the 1923 issue of Refunding Loan bonds have had the satisfaction of watching their bonds rise in value by more than four points, while those who purchased last year have also witnessed an improvement upon the prices paid. It is a fact that all Dominion of Canada bond issues floated since the commencement of the war are now selling at a substantial premium over the original issue price. The best advice to prospective investors, therefore, is to enter their applications as quickly as possible. It is understood that this can be done through any bond dealer, stock exchange broker or through any branch of any chartered bank.

WILL STAY IN ALBERTA

It is announced that Hon. Francis Eaton, of Alia, Alberta, recently succeeded to the title of Lord Chesham, will not go to England to take his position as bearer of that title, but will remain in Alberta where he has been engaged in farming for some years.

School Column

The following additional contributions have been received towards the School Fair prize fund: Mr. Harold Hudson \$5.00, Mr. Garrett \$3.00, Mr. Perry \$2.00, Dr. McIntyre \$2.00, Mr. Geo. Jones \$4.00. The Association gratefully acknowledges these amounts and renders its thanks to the donors. A meeting of the Bow Valley Local of the A. T. A. will be held in the school at 6 p.m. on Wednesday, September 23rd. As the Secretary, Mr. O. C. Reed, has left the district, the first business will be to elect a successor. Another important matter before the meeting will be to make arrangements for the 2nd Annual Field Day, to be held in Strathmore on Saturday, October 16th. Every teacher in the district is strongly urged and cordially invited to attend this meeting. Refreshments will be served.

At a meeting of the Executive of Calgary Rural Inspectors' Teachers' Association it was decided to hold the Annual Fall Convention in Calgary on Thursday and Friday, October 22nd and 23rd. Last year the teachers of the

Standard Notes

Miss Kathleen Day, of Calgary, formerly of Standard, spent a few days here last week, the guest of Miss Helen Gregory.

Mr. T. Turgut spent the week end in Calgary.

Threshing in this district was completely held up all of last week owing to the wet weather.

Mr. Gorrell, Mr. Hober, and Miss Peden attended the Hunsar School Fair last Monday, and acted as judges there. There was a holiday for the school children that day.

Mr. F. Messenger is filling the position of post master temporarily until such time as the official appointment is made.

Bow Valley district had luncheon together, and it is hoped that a very long table can be filled this year. Programs for the convention will be out about the first week in October. Every effort is being made to make the convention inspirational and helpful.

Maintaining Ford Leadership —Highest Quality at Lowest Cost

Introducing many improvements in the world's most popular line of motor cars.

The Fordor Sedan

Color—Gray with black enamel running gear. Composite body. Nickel-plated radiator shell and headlamp rim. Leather-look sun visor, closed at both ends. Standard equipment includes spare tire, demountable spare, windshield wiper, rear view mirror and dash lamp.

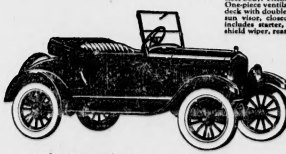

The Tudor Sedan

Color—Dark Blue with black enamel running gear. All-steel body. Nickel-plated radiator shell and headlamp rim. Lower seats both front seats tilting. One-piece ventilating windshield. Leather-look sun visor of new design, closed at both ends. Standard equipment includes spare tire, demountable spare, windshield wiper, rear view mirror and dash lamp.

The Coupe

Color—Dark Blue with black enamel running gear. All-steel body. Nickel-plated radiator shell and headlamp rim. One-piece ventilating windshield. Unusually wide rear deck with doubled compartment capacity. Leather-look sun visor, closed at both ends. Standard equipment includes spare tire, demountable spare, windshield wiper, rear view mirror and dash lamp.

The Runabout

Color—Black. All-steel body. Double ventilating windshield. Wide rear deck with compartment space greatly increased. Tool box under seat. Standard equipment includes spare tire, demountable spare, windshield wiper, rear view mirror and dash lamp.

The Touring

Color—Black. All-steel body of streamlined design. Double ventilating windshield. Ford leather-look one-man top. Tool box under front seat. Standard equipment includes spare tire, demountable spare, windshield wiper, rear view mirror and dash lamp.

LOCAL NOTINGS

Another sign of approaching winter. Trans-Canada passes through Strathmore for the last time this year to day.

Paul Boulanger was fined \$5.00, and \$14.75 costs, before Justices Lambson and Pakenham on Thursday, for the theft of a pair of blankets from Mr. P. Dufour. Constable Hale prosecuted, he and Justice Lambson having to make a trip over muddy roads to Carleton Place in order to hold court.

If anyone has a copy of the issue of the Standard dated August 12 would they kindly give it to Mr. P. J. Dunn. This issue was completely sold out.

A meeting of the Strathmore United Church Board was held at Strathmore Monday evening, when, in addition to the Namaka members, a number of representatives were present from Strathmore and Chedoke.

Services will be resumed at Night Inaugural Sunday at 3 p.m. by Rev. Mr. Tottle, who has now recovered from his illness.

Mr. R. A. Anderson and son Frank are enjoying their visit to Strathmore, though so far they have not had an opportunity of doing much harvesting. However, they are making use of time to renew old acquaintances.

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard.
Phone 17 or 68.

Mr. Norman S. Rankin, Special Publicity Agent, C.P.R., Montreal, who is in charge of the party of British Journalists which visited Strathmore on Monday, is well known locally, having been prior to the war in charge of the publicity department of the Company at Calgary.

One of the visiting Journalists at the Demonstration Farm on Monday worked off a pun while Geo. H. Jones, the general manager, was describing the merits of the poultry department and the system of supplying eggs to the dining cars. George mentioned the term good strains, and the visitor said he thought that "good strains would travel in goods trains," but as trains do not go by that name in Canada, we are afraid the joke passed over "Goods" in the British Isles, corresponds to "Freight" here.

Rev. A. H. Howe attended the first Presbytery meeting of the United Church at Calgary yesterday.

Miss Prowse, of Chumy, is on the staff at Strathmore Telephone Exchange, which now has five operators.

DUCK SHOOTING OPENS

The duck shooting season opened yesterday, and before break of dawn hunters were posted around every likely slough in the district. Many sportsmen were in from Calgary, and other points, and some good bags were recorded.

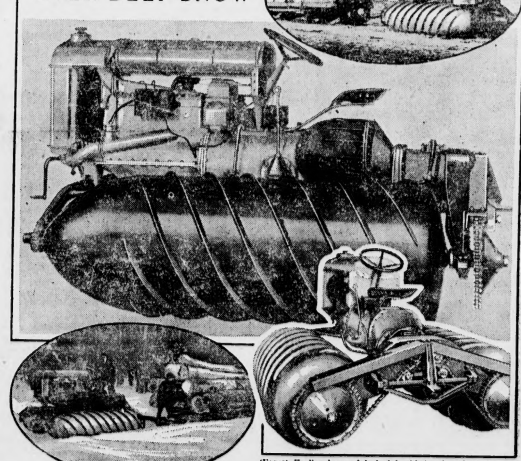

Plenty of COAL

Stored in your yards—a reminder that you should be ordering your part of it now while the low summer month prices prevail. Immediate delivery. Before you forget it put down this phone number—32—and phone us to-day.

SOLVES PROBLEM OF TRANSPORTATION OVER DEEP SNOW

(Upper) Heavy sled loaded with log through an ice covered river strait. (Center) Side view of the Fordson Snow Motor. (Lower left) Road breaking over near old foot bed with load of lumber. (Lower right) Rear view of Fordson Snow Motor.

Necessity is the mother of invention. At least every body says it is. They tell us that is why we have the telephone, the radio, the electric washing machine, chewing-gum, aeroplanes and bobbed-hair; all members of old Mother Necessity's vast and ever growing family.

And now the transportation branch of the family circle has been added to by the advent of a very healthy and important youngster who has a bright and promising future ahead of him. He is called the Snow Motor, a name which was given him because of his amazing ability to move himself and anything that was attached to him as easily over six feet of snow as an ordinary wheeled vehicle does over a paved road.

The Snow Motor was invented by a man who has spent the greater part of his life in the snow-bound wildernesses of Alaska and whose livelihood depended upon his ability to transport himself and certain weighty commodities, such as lumber for his either his life or his lumber.

It did not take more than a few winters in the frozen north to convince this gentleman, whose name by the way, is F. R. Burch, of Seattle, Washington, that there was something radically wrong in the matter of vehicular traffic in countries where very heavy falls of snow were common and inevitable occurrences. Not only was this true, he thought, in regard to the hauling of heavy loads but in the transportation of the inhabitants themselves who, any often quite unbusiness during the winter months, months when whole communities had either to put up a desperate fight against the snow with sadly inadequate equipment or else, what is sadder still, resign themselves to being snow-bound for the winter and completely cut off from the rest of the world.

And so, urged on by Mother Necessity, Mr. Burch and his associates conceived the idea of the Snow Motor. And this is what the Snow Motor does. It floats over snow and, in floating, packs the snow down smoothly and makes a very satisfactory surface for other vehicles to travel over; it hauls twenty-ton loads of snow and, any depth, it hauls lumber from the forest, ore from the mines, pulp wood to the mills, mail to rural snow-bound communities, passengers from one such community to another, and in fact does practically everything that an automobile can do on a road.

The Snow Motor is a weird looking contrivance which rides in places where there is no snow, climbs over fences, stands on its double-barrelled nose and drags its great loads behind it without any apparent effort. As manufactured at present it is attached to Fordson tractors which provide its motive power. Later it will also be used on standard automobiles, when it will travel at a rate of twenty-four miles an hour.

Stripped of its motive power it consists of two cigar shaped cylinders or drums which float upon resembling cork screws are attached. These cylinders literally float on the top of snow drifts, for they displace snow equal in weight to the weight of the machine, just as a boat displaces water in proportion to its own tonnage. For heavy hauling the Fordson tractor stripped of its wheels and axles, is mounted on the Snow Motor and the cylinders are caused to revolve with the result that the Motor worms its way along by means of the screw arrangement on the cylinders. For lighter, or passenger traffic, the wheels and axles of an automobile are removed and replaced by the Snow-Motor. In summer the wheels can be put back again.

In snowed-in districts, up to the present, every effort has been directed to find ways and means for the removal of snow as the only way of opening up traffic. Now, however, the Snow Motor comes along with its funny looking cylinders and floats merrily over soft snow drifts, hard ice, in fact any condition of snow and as it goes makes a road for light vehicles to follow immediately and, after thorough packing, for loads of any weight.

Such is the latest and most important addition to Mother Necessity's family of inventions. It is built by Snow Motors Incorporated in Detroit, Michigan, under the presidency and general management of A. F. Knoblock. It has already proven its ability to carry the heaviest loads and that it will be of general use in mining and lumbering operations during the coming winter. It is expected that each succeeding winter will find some new use as it can profitably be put to and it is difficult to envisage just where the limit of its adaptability should be placed.

Edmonton, Alta.—Fishing operations will again commence on the Lesser Slave and Lac La Biche lakes on August 15. The Lesser Slave allotment amounts to 450,000 pounds of whitefish and the Lac La Biche 200,000 pounds of whitefish. The season closes September 30. The market for the catch is found in the Prairie towns and cities, as well as in St. Paul, Chicago and New York.

STRATHMORE

Winnipeg, Man.—As a result of the active demand for lumber, the mills of the Pas, Man., expect to cut 50,000,000 feet this season, according to the report of R. W. McKinnon, commercial agent for the Northern Manitoba territory. This is 10,000,000 feet more than the previous season.

Edmonton, Alta.—A recent census of the City of Edmonton, taken by the civic authorities, shows a population of 65,378 in comparison with 58,000 in the Federal census of 1921.

Edmonton, Alta.—There were 109 head of cattle shipped to Britain during 1925 totalled 56,672 head. This was increased in 1924 to 79,435, and it is quite possible, according to the provincial livestock commissioner, that nearly 100,000 head will be shipped to Great Britain during 1925.

THRESHERMEN SET PRICES

Threshermen of Strathmore and the district, taking advantage of the delay caused by wet weather, met on Saturday, and set the price to be paid for labour at \$4.00 for a ten hour day. Wheat will come to thresh 15c per bushel, oats, 5c, and barley 10c.

HOLLINGSHEAD COMMERCIAL COLLEGE

This well known institution, which is located at 228 8th Ave. W. in Calgary, offers the best of educational opportunities in any city. Students from this school may be found successfully located all over the country. They teach shorthand, Typewriting, Book-keeping, Penmanship, under the direction of Mr. Hollingshead, P. C. T. F. L. R. S. Mr. Hollingshead is not only Practising Teacher of Shorthand in Calgary officially certified by the Phonetic Institute.

Perhaps no institution, whether local or foreign, that operates in this section is more worthy of favorable mention than this well known business college. Since the day of its foundation to the present time there has been but one idea in the manner in which it has been conducted, and that is the improvement of living conditions and the broadening of all who are brought in contact with it, in an intellectual way.

For years past the importance of special training for a successful business career has been impressed upon the minds of the public. The large employers are constantly giving preference to the applicant who trained himself for some line of work connected with the business in which he is about to engage, and as a result, the person who is untrained watches the new man or woman go past him to some higher position that carries not only an increase in salary, but responsibility.

A business course for the son or daughter is the aspiration of every modern parent, and with such an institution as this one in our midst, the future of your son or daughter is assured, for at a very nominal cost a complete course in any business subject that may be desired can be secured.

All the modern methods of instruction in these courses have been introduced, and the instructors themselves have been selected with the view of making this college one of the best of its kind in this section; in this review we take great pleasure in complimenting the Hollingshead Commercial College. This modern institution has added much to the growth and improvement of this section.

A gentleman on a motoring tour stopped to replace a tire in a desolate part of the Highlands. A native chanced along and helped.

"I suppose," said the tourist, "that even here the bare necessities of life have risen tremendously in price."

"Aye, y're right," replied the Scot. "And no' worth drinkin' when ye get it."

EIGHTEEN YEARS OF SERVICE

After eighteen years of service as a justice of the peace and police magistrate, E. N. Barker, of Lethbridge, has retired, and the Provincial government has named W. A. Hamilton, of Lethbridge, as his successor.

CIVIL SERVANTS MEET

The Convention of the Amalgamated Civil Servants of Canada was held in Edmonton during the past week with a good attendance of delegates.

Montreal, Que.—Canadian cattle shipments to Great Britain, since the lifting embargo was lifted in April, 1923, up to the end of May of the present year, totalled 156,673 head. The estimated value of these exports was

The Bassano Mail was nearly destroyed by fire last week when the house next to it was burned. The editor was in Edmonton and his assistant in Jenner. The Bassano fire brigade saved the place.

Here and There

All tourists' records, motor and train, are being broken at Banff, Alberta, this year. More than 15,000 cars were registered by the first of August with the big rush yet to come. As many as 2,000 were under canvas at one time in the Government auto camp ground.

Maple sugar and maple syrup production in Canada during the season of 1925 amounted to 1,791,350 pounds and 1,772,093 gallons, respectively, with an aggregate value of \$6,825,416. This compares with an output of 3,935,415 pounds of maple sugar and 1,970,096 gallons of maple syrup during 1924. Quebec province accounted for over 90 per cent. of the production of maple sugar and over half of the output of maple syrup.

Production of the four basic industries of British Columbia during 1924 aggregated in value \$210,692,735, as compared with \$207,894,041 in the previous year, according to a statement issued by the Provincial Government. The 1924 production was made up as follows, with 1923 comparative figures in brackets: Forest products, \$80,702,000 (\$85,744,000); agriculture, \$60,000,000 (\$50,130,798); mines, \$48,704,604 (\$41,304,328); and fisheries, \$21,266,965 (\$20,795,923).

Canada's ordinary revenue for the four months of the present fiscal year ended July 31 last, shows an increase of \$2,992,183 over the same four-month period last year, according to a statement made by the Department of Finance. Ordinary revenue for the four months of 1925 amounted to \$141,759,416. Ordinary expenditures during the four-month period show a decrease from \$65,546,941 in 1924 to \$65,655,092 this year.

George H. Ham, known throughout Canada as the Grand Old Man of the Canadian Pacific, celebrated his seventy-eighth birthday on Sunday, August 23rd, and was the recipient of a deluge of congratulatory messages from all parts of the country. Col. Ham has been with the Canadian Pacific since 1905 and is an social activities and powers as an orator has made for himself and for the company a veritable army of staunch and faithful friends.

Butter exported from Canada during the twelve months ending June 1925, amounted to 25,096,120 pounds, valued at \$9,934,794, a decided increase over the figures of the previous year when exports amounted to 13,668,370 pounds, valued at \$5,631,634, according to a report issued by the Federal Department of Agriculture. Shipments were made to the United Kingdom, the United States, South America, South Africa, West Indies, Alaska, China, Japan, Germany, Belgium, Cuba, Holland, New Zealand and many other countries.

James Oliver Curwood, the well-known American novelist, who crossed not long ago to Europe on the "Empress of France" and returned a few weeks later to Canada on the "Empress of Scotland," wireless the following message from the "Scotland" to the Canadian Pacific headquarters in Montreal: "Can never fully express my appreciation of the splendid treatment accorded me by Captain Gillies and Captain Griffiths, and the staff aboard the 'Empress of France' and the 'Empress of Scotland.'"

Dalemead

The first of this month saw the school doors once more thrown open, and these centres so quiet and forbidding some weeks past become places of renewed activity. The teachers for this term, here will be: Miss Dratty, for the Strathmore; Miss Rennie for the Oakland; Miss Dunphy for the Newton; and Miss McGregor for the Arbogast school.

Nicholas Dyke and his son, Sherman, from Hosper, Iowa, are on their trip back home, after visiting with the Van Der Velds, and others for about a month, and he was favourably impressed by this great western country.

Elsie Kants was visiting with her brothers and sisters for some weeks, and returned to Rosebud, where she has been employed for some time.

BRITISH JOURNALISTS VISIT STRATHMORE

(Continued from other page)
S. Stockton, Superintendent Western Section Bow Valley Irrigation Board; C. O. Smith, editor Calgary Herald; N. Lamb, editor Calgary Alberta; Thos. H. Wright, President Strathmore Board of Trade; Mayor H. W. B. Bell, Strathmore; John Mackenzie, editor Strathmore Standard.

The party left in taxis for Calgary at 6 p.m., prior to which they were photographed by Mr. Oliver, Calgary.

The Grain Growers' Grain Company has leased a large grain elevator at Vancouver to handle export grain shipments going overseas from that port. It is said that a large British Grain Company is associated with the Grain Growers' Grain Co. in the lease. Increased export of wheat via the Pacific coast is expected as a result of the establishment of a farmers' elevator there.

Another party of Mennonites who
were induced to move to Mexico have
returned to their former farms in
Saskatchewan, admitting that they
made a big mistake. In Mexico they
bought 100-acre farms at \$10.00 per
acre, paying half down. They have
now relinquished their claims and sold
their stock and are glad to get back
to Western Canada. They state the
climate conditions were such in
Mexico that crops could not be suc-
cessfully grown without irrigation.
The principal crop grown was beans.
While taxes were low on land, there
was a government levy on nearly
everything sold—the rate on beans be-
ing \$5.00 a ton, and on butter 25 cents
a pound.

Rockyford

LADIES CLUB ELECTION

The election of officers for the
next six months for Rockyford Ladies
Club took place on September 10th,
the following being elected:

President—Mrs. Acton, Vice Pres-
ident—Mrs. Poole, 2nd Vice-Pres-
ident—Mrs. Curran, Secretary—Mrs.
A. L. Miller, Treasurer—Mrs. Ryan,
Trustees—Messdames Acton, Dill and
McGuire. Auditors—Mrs. Wise, Miss
English.

The ladies adopted as their objec-
tive for winter months the equipment
of the hall kitchen. The meetings will
be held on alternate Thursdays. The
next meeting will be on September
24, at the home of Mrs. Acton.

CURLERS ORGANISING

A meeting was held in the Bank of
Commerce rooms on Monday evening
to organize a curling club in Rock-
ford. There was a large attendance of
local men. A committee composed of
D. R. Poole, Fred Hunter, and L. M.
Kattenhagen was appointed to ap-
proach local citizens for their support
to the venture.

Miss H. Sladek has been called to
her home on account of the sickness
of her mother.

Mr. English, who recently left
Rockyford for Arrowwood, has been
appointed manager of the Imperial
Lumber yard at Carlton.

The "Ruff Neck" gave a dance
last Friday night, which proved very
successful. A surplus of \$20 being
turned over to Mrs. McGree for the
school gramophone fund.

The Gaiety Club will reorganize in
the near future. We wish the girls ev-
ery success this coming season.

A bunch of local sports were out
shooting yesterday morning. Jack Ick
Watson for details?

No threshing last week on account
of wet weather. Some threshermen
expect to start today, and all should
be going by Friday, if the weather
stays dry.

You don't want this
to happen to you.
Let us end your
worries by servicing
your battery regu-
larly this season.

Rosebud News

The Rosebud Cooperative Assoc.
held a meeting Saturday evening for
the purpose of electing three direct-
ors.

More rain and much rest for the
farmers. Everybody seems anxious to
thresh. Some have been out restor-
ing some of their grain to prevent
sprouting.

Mrs. Estella Gandy of Detroit Mich.
is home visiting her parents Mr. and
Mrs. Cleary.

The Rabbit Lake School House
dance was well attended in spite of
unfavorable weather.

Miss Mildred Cole spent the week
end in Edmonton, and she and her
brother Wane, will attend University
there this winter.

Mr. and Mrs. A. E. Vigar were wel-
come callers in the Forker home on
Sunday afternoon.

Mrs. Frank Couch of Calgary is
expected to visit friends in the dis-
trict this week.

Our councillor H. W. Brunner has
made a wonderful improvement on the
McLaughlin hill by putting a railing
along the curves. This is a dangerous
hill.

Toronto, Ont.—Canadian bond sales
during the week ending August 16th
amounted to \$208,579, which brings
the total for the year up to \$247,959,160.
Of this sum \$103,335,827 represents
the value of bonds sold in Canada;
\$27,978,333 in the United Kingdom;
and \$115,745,000 in the United States.

AFRICA'S FAIREST

Though not a statuesque blonde, the
sixteen-year-old maiden pictured above
took a prize in a recent Algerian
beauty contest. She was raised as one
of the fairest in all Africa.

UNITED CHURCH NOTES

A meeting of the United Church
was held in Tudor on the 7th, when
representatives from Crowfoot, Tudor
and Rockyford were present. A num-
ber of matters relative to the interests
of our Church work were discussed,
and plans for future service outlined.
It was announced that Dr. Tuttle, of
Edmonton, will be with us again for
our Anniversary Services on the 1st
and 2nd of November. It was also de-
cided to purchase a stationary lantern,
so that we may avail ourselves of the
slides which the United Church are
preparing on missionary and other
subjects.

Mr. Rogers will take the service at
Jarvis on September 20th, and Mr.
Frost will take his place at Crowfoot
in the morning.

Miss Dey has been appointed dele-
gate to the Presbytery meeting on the
15th September.

We are glad to state that the School
Board of Tudor has kindly consented
to grant us the use of the school for
Sunday services, until the new hall is
ready for occupation.

The Beaver Cubs had a royal bean
supper on Friday last, after which re-
organization took place, and indoor
games. We purpose splitting the
group this year, and if possible have a
"Beaver" group, and a "Trail Ranger"
group. Will all boys wishing to join
please see Mr. Rogers at once.

Next Sunday's topic, "Where did the
Bible come from?"

GULLIP'S FIRST HOUSE TO BE RESTORED

At the instance of the Wellington Historical Society, the old Priory building of Gullip, Ontario, erected nearly a century ago by John Gullip, the founder of that city, is to be restored. The various trades unions in Gullip have offered to contribute to the restoration and an energetic campaign is now being carried on among the citizens to raise the balance of the money required to rebuild, in replica, the building as it stood on completion ninety-seven years ago. The old building was removed from its original site many years ago, and some of the original logs were replaced with new ones, but there are still many of the timbers remaining that were placed in position by the Canada Company's axmen in 1827. For some years the old Priory building was utilized as a passenger station by the Canadian Pacific, but it was abandoned as a station when the town of Gullip outgrew it. Tradition has it that Gullip, taking an axe from one of the axmen struck the first blow against the first tree to be felled, after which he and his party drank to the prosperity of Gullip.

Social-Personal

Mr. John A. Campbell returned back to Strathmore on Saturday. He has for the past year been staying at Albany, New York.

Mr. and Mrs. R. Fox left for Winnipeg on Friday. They will be met there by their daughter, who has just arrived in Canada from England. Mr. Fox will be back in Strathmore in October, to wind up his business affairs.

Mr. and Mrs. T. H. Milson are rejoicing in the birth of a daughter on Friday morning.

Mrs. Alfred Johnson was among those who deposited flowers on the Memorial at the unveiling.

Leonard Van Tighem left Monday for Regina, where he will attend college. His father, Mr. Jos. Van Tighem, will accompany him there.

Mr. J. P. Lowry received word on Friday of the death of his mother, Mrs. William B. Lowry, at Brooklyn, N. J., at the age of 80.

A very enjoyable time was spent at the home of Mrs. Annie C. Quinn on Thursday, September 10th, who entertained in honor of the birthday of her sister, Mrs. Frank Nelson, of Sheffield, England. The guests numbered about twenty-five. Whist melee was played during the evening. Mrs. Sorensen and Mrs. O. Wright winning the prizes. A dainty supper was served by the hostess. The house was beautifully decorated with cut flowers.

Mr. and Mrs. Sydney Moore are rejoicing in the birth of a daughter at the General Hospital, Calgary, on Monday evening.

Mrs. P. Simonsen left for her home in Grandin, N. D., U.S.A., Tuesday, after a month's visit in Strathmore.

Golf News

HOLES OUT IN ONE

Joe. Van Tighem, President of the Club, on Sunday created a new record for Strathmore Golf Course by making a hole in one.

Joe made a mighty drive from the fifth tee and couldn't find his ball. When he and his partners, Anton Pierson, Fred Dunn, and Leonard Van Tighem, looked into the hole, however, there was the ball. The fifth hole is 202 yards.

It is anticipated that arrangements will be made to entertain a party from the C. P. R. D. N. R. Calgary on Sunday next and in consequence the Cup Competition will not be played till Sunday the 26th.

If the above party does not come on Sunday there will be an opportunity for those who have not played the 27 holes for handicapping purposes to get this done, and this enable the Committee to have all the handicaps arranged prior to the Cup games.

Will those players who have not attended to their fees and greens get busy this week, so that the course will be in good shape for the weekend. The Executive have decided that new members will be accepted for the balance of the season at a reduced membership fee of \$5.00, and any who pay up this week will be included in the Cup Competition. Fees may be paid to Mr. D. N. Gardiner, J. VanTighem, or F. J. Dunn. This does not include those who have played all the season without paying, as the latter are expected to pay the full fee.

LADIES' CLUB

In the first round of match play for the handicap cup, Miss Watson defeated Miss Brown 3 up and 2 to go; Mrs. Patrick defeated Miss Kayvett 3 up and 2 to go; Mrs. Ridley defeated Miss Gibson 4 up and 3 to go; Mrs. Hill defeated Mrs. Whiteside 4 up and 3 to go.

In the first round for the handicap medal Mrs. T. Chamberlain won from Mrs. Hirtle; Mrs. Lydiatt won from Mrs. Howe; Mrs. Whitney won from Mrs. Pierson by one hole; Mrs. Stockton won from Mrs. S. Chamberlain (by default).

The draw for the semi-final games is as follows:

Handicap Cup
Mrs. Patrick vs. Miss Watson
Mrs. Ridley vs. Mrs. Hill
Handicap Medal
Mrs. Stockton vs. Mrs. Lydiatt
Mrs. Whitney vs. Miss Borton
Mrs. T. Chamberlain drawing a bye.

These games, 18 holes match play for the cup, 9 holes match play for the medal, must be played by Sunday, September 21st (inclusive).

Baintree

The regular meeting of the Community Club was held on Thursday, the rendezvous on this occasion being the home of Mrs. Cliff Kinnert. Despite the wretched weather conditions, the attendance was fairly good, and those who braved the elements were rewarded with the usual enjoyable entertainment.

Mrs. McBeth was overtaken by illness on Thursday and is now under the care of Dr. J. S. McEachern in Calgary.

At the hour of writing threshing operations have been suspended for an indefinite period. So far only J. Molines and Walter Keeler have any wheat in the bin, but when the weather becomes again favourable, a large number of outfits will be ready to start. Mr. Molines threshed a small field on the creek flat, which consisted of fall and spring plowing, and also a little breaking. This yielded in the neighbourhood of thirty bushels per acre. Although Mr. Keeler's small field has not been finished, returns for the portion threshed indicate that the yield will also be about thirty bushels.

"You are beaten to earth; well what of it?"

Come up with a smiling face. It's nothing against you to fall down flat. But to lie there—that's disgraceful." —E. Vance

The retreat of Capt. Joseph Shaw from active politics is a distinct loss to the west. If ever there lived a straight shooter, Joe was the man. His modest, kindly ways; his sincerity of purpose, and his independent views made the number for whom Calgary one of the most outstanding politicians of the entire west. May his well-deserved fame follow him all his work.

"The game of life is not so much in holding a good hand, as playing a poor one well."

But a few days ago a well-known daily devoted nearly half a column to inform its readers that over fifty thousand Canadians had returned to their native land during the last twelve months. In a more recent issue of the same paper, a very small announcement covered the news that during the month of August alone, nearly nine thousand of our fellow citizens had gone the other road. The latter figure only deals with one small station entry. What occurred at the more important points on the international line, is left for the imagination to conjure with. And in this problem lies the source of our national weakness. In this vast country, which has superabundance of natural resources, population is nearly at a standstill.

For years, many of our statesmen have been cured with a vision that permitted them to see only within the confines of their own wide-flung. They are now afflicted with a form of morbid, which, unless treated with decision and promptitude, must end in disaster and oblivion for the nation. Writing to an eastern magazine recently, a gentleman stated with pride that the Canadian universities have more students at the present time than they ever had before. What is the use of these noble and costly institutions, when over sixty per cent. of the graduates have to seek a living on the other side of the line? Is the use of these noble and costly institutions, when over sixty per cent. of the graduates have to seek a living on the other side of the line? Is the use of these noble and costly institutions, when over sixty per cent. of the graduates have to seek a living on the other side of the line? Is the use of these noble and costly institutions, when over sixty per cent. of the graduates have to seek a living on the other side of the line?

"Land of the Forest and the Lake,
Land of the rising river,
Our prayers shall rise for thy dear sake,
Forever, and forever."

Vancouver, B.C.—The first carload of pickled cod ever produced and shipped from British Columbia was dispatched to eastern markets during the early part of this month. This inaugurates a new industry on the British Columbia coast. Several fish reduction plants have started since the Government permitted use of pickled cod in fish reduction.

CROP REPORTS

Hon. Geo. Hoadley, Provincial Minister of Agriculture, has been berated for estimating this year's Alberta wheat crop at around eighty million bushels. George may have erred on the safe side. The Manitoba Free Press estimates Alberta's wheat crop at 91 millions, and the Dominion Government at 110 millions.

According to the "Albertan" Wheat took a slump of three cents per bushel in Calgary Thursday on the strength of lower prices at Winnipeg which were caused, to a great extent, by the healthy crop reports of the Canadian and United States governments and heavy liquidation of long lines.

So there is a loss of three cents a bushel caused, according to the same authority which takes Hon. Geo. Hoadley to task, by a Government report, which may be, and probably is, incorrect.

THE VALUE OF RESEARCH

The University of Alberta is doing a great work in the development of our natural resources. Experiments are being conducted by the faculty into soil conditions, into oil development, extraction of oil from tar sands, prevention of rust and other crop diseases, and in various other lines. One of the discoverers of insulin, Dr. Collip, is a member of the staff of the University of Alberta.

Taxpayers sometimes have been heard to complain of the expense of maintaining the University, but the complaints are short-sighted. For instance, if a method of commercial value is found for extracting the oil from Alberta's tar sands, enough oil can be produced there to supply the wants of the world for the next five hundred years at the present rate of consumption. Many millions of dollars are lost to Western Canada every year by rust and other crop diseases. Our natural resources are of little use to us unless they can be developed, and the work done by the University staff is of great value in promoting that development.

ELECTION TIME

The political pot is commencing to boil. Leaders Mackenzie King and Bennett are already hurling defiance at each other, using all the epithets sanctioned by polite society. So far the head of the Progressives, Mr. Forke, is the only leader who is not employing his time in vituperation. Whether that is because of good judgment or of a feeling that in that business he would not be a match for the other two is not certain. At any rate he has not been heard from.

Whatever the situation may be in Eastern Canada, evidences are that the people of Western Canada are not prepared to be herded into the Conservative and Liberal camps at the behest of the party drum.

Party labels do not mean much out here. The people will probably vote for the man whom they consider best, irrespective of his party affiliation.

There were times when the words Conservative and Liberal stood for something, but at present it is hard to distinguish any essential difference between them. W. M. Davidson, of the Calgary "Albertan," is willing to stand for Parliament if it is understood that he can speak and vote as he likes, without regard to party edicts. That is the spirit we want to develop. The policy of the old parties has too long been to determine Canada's fiscal and other policies with regard only to the welfare of Eastern Canada. We want men who will be responsible to their constituents, not to the party leaders.

Organization is necessary to enable the Government of the country to be carried on, but the welfare of the country should not be subordinate to party interests.

Western Canada is still a new country. Its development can best be hastened by the selection of representatives who are broad minded and who are not tied to any party fetish.

ADVERTISING A NECESSITY

So says Roger W. Babson, in a letter dealing with the newspaper market, respecting the rise in price of the stock of paper companies. This is partly, he says, due to the increased demand for paper on account of increased newspaper advertising.

The letter is, in part, as follows: "In its early days, advertising was looked upon either as a stunt or a nuisance. The large advertising accounts were those of the circus companies and patent medicine manufacturers. To advertise heavily was not considered good form and even some of the largest department stores never did any advertising. Then there was another group which advertised, they said, for good will; but a study of their copy shows that it was largely to satisfy their vanity. Today, however, the situation is entirely changed, and advertising has been the means of reducing selling costs in many lines. Newspaper advertising is not only a necessity but it is one of the very best investments a business firm can make. Furthermore, the goodwill gained by national advertising is developing monopolies which are more profitable than any of the so-called trusts. Moreover, thus far no politician has found a way to attack these monopolies which are thus being unconsciously formed by national advertisers.

"During previous business depressions newspaper advertising fell off very considerably, but not so during the recent depression. Now most newspapers are running more advertising than ever before, even though general business is quiet in many sections and many lines. Even advertising experts are suggesting that in years to come more advertising space will be required in dull times than in boom times. This is because it is believed that manufacturers and merchants should even go into debt to purchase advertising space. Of course, this is very good for the publishers and tends to increase the use of paper; for it means that advertising, which was more or less erratic, is becoming a stable industry. Economists even talk of the times when newspaper publishers will be a great factor in steadying business condition by taking out the peak and valleys by raising the advertising rates in boom times to serve as a check on the situation, and lowering them in times of depression to encourage buying. This situation has undoubtedly helped paper securities.

Langdon Notes

School started September 1 with Mr. R. Thomas, formerly of Bentley, as principal, and Miss Gerald as primary teacher. Mr. and Mrs. Thomas are occupying the E. Armstrong home.

Mr. and Mrs. Roger Dye have both been ill for two weeks, but are improving now.

The Ladies Aid and the Sunday School had a pleasant farewell party for Miss Alta Nichols on Wednesday. A pleasing feature of the afternoon was the presentation of a purse and money as a small token of esteem. Alta has been a faithful worker in the S. S. for many years. She left on Sunday for Fort Wayne, Indiana, to attend a Bible School, with the intention of becoming a missionary.

Mr. G. Cowan, a nurse-in-training at the Holy Cross Hospital, spent her two weeks' vacation at the home of her parents.

Mr. and Mrs. L. Little were business visitors to Glenora Saturday, returning Sunday.

Mr. Roddick spent the week and in Calgary.

The Standard printed the result of the plebiscite in Langdon as follows: In it should have been: for Local Option 19 votes, against 16.

PRINTING
Makes the World Go Round

The Standard's equipment is always up-to-date. We have recently installed some of the latest type faces to enable us to give you service.

When you have printing orders patronize the country office rather than one located in the cities or in Eastern Canada.

You keep your money at home, and you are more likely to get a job that suits you, as we know the local conditions. Our price will suit you too.

We can't talk as well as some of the visiting salesmen, but we can print. Talking is the salesman's specialty. Printing is ours.

Buy at Home, or as Close to Home as You Can Buy.

Strathmore & Bow Valley Standard

Phones 17 and 68, Strathmore, Alta.

Ottawa, Ont.—The average yield per acre of fall wheat in Canada is estimated to be 25.5 bushels, as compared with 28.8 bushels last year and with 25.8 bushels, the phenomenal average. On the harvest area of 797,000 acres, the total yield is 21,125,000 bushels, as compared with 22,284,000 bushels from 774,775 acres last year. In Ontario the preliminary estimate for this year is 20,140,000 bushels.

Quebec, Que.—From the beginning of June to August 10th, some 1,400 automobiles bearing American and out-of-town licenses have camped at the municipal camping ground just outside of the city. This number is in excess of the total number of cars parked at the grounds last year, and as they are coming in at the rate of 85 to 90 a day it is expected that a new high record will be established for the year.

Winnipeg, Man.—Within recent years the areas in Western Provinces suitable for homesteads have become more and more restricted. On January 1, 1925, the Federal Government estimated that the area surveyed in Manitoba, Saskatchewan and Alberta, 55,000,000 acres were devoted to homesteads.

Edmonton, Alta.—Forty-nine Irish men, in charge of M. Mulvey, have arrived in Northern Alberta and will be located in the Edmonton district. The party came from Cork, Limerick, Carlow and Dublin counties. Archbishop O'Leary and other dignitaries and officials of the Archdiocese have undertaken to see that the newcomers are given every chance to make good.

Slats' Diary

Friday—maybe we will be lucky
enough to get us a new machine before
long if we are lucky.
Saturday—when I woke up this
morning I realized that if I
could wake up now I
need be foolish enough to
go and by that is hundred
of our we seen in a
show window up at
the city this evening
while we was out riding,
well if he how
much would we ride
if I gear head try
his little best.
Saturday—well we
started football practice
this afternoon down at
the commons. Bitters
didn't show up. We went a past his
house and hollered and wissled for
him and didn't get no answer, we all
new he was at home every ways be-
cause we went a past the house we
seen his shirt on the line. goss
mealy that is why he didn't show
up.

Sunday—all the neighbors in this
neighborhood was handed a surprise to-
day when they found out that the
Widda Millet; had went and married
Joe Little. Joes sister told me that
the reason why the widda married Joe
was beaur her let husband close fit
Joe to a Tea and that was the reason.
she is so economic.

Mundy—I took me like the
Hillies played kinda practice link
over there baby with come to make his
home with the first of the month.
They named it Bill and when we was
down to see it quite me last them how
cum they named it Bill and Mr. Hill
said it was becuz it cum the first of
the month.
Tuesday—Mr. Bloom witch is the
book keeper down at the dry goods
store and his wife made a call on us
today. me and she was discussing
sum thing and she ask him didden he
believe that the woman Pays. He sed,
well you woodent think so if you seen
sum of the charge cards, we got down
to the store.

Wednesday—says pa is very in
mannerly becuz he call the company
after down at the noosepaper Public
Office. He told Ant Emmy he called
her that becuz she was all ways seek-
ing the man.

Thursday—They was a kid started
to skool today that was so dum he
thot foods was a vegetable becuz he
had heard to much about foot plants.

Craigantler News

Threshing has been held up since
Wednesday of last week, and some had
not made a start since being stopped,
the Friday before. The farmers have
all been setting up stocks as the warm
weather is sprouting some that is
down.

George Collins and T. Evoldsen
made a flying trip to the homestead
country on business.

The Craigantler ladies are breaking
in their husbands to stay at home
with the children while they attend
the week-end dance at Standard.

Some are trying to thresh today,
Tuesday, but it rather tough yet.

Chris Hansen who left some 18
months ago to settle in the States is
back with his family to stay. He says
Alberta is a good place to live in be-
sides many more chances to go
about 40 acres with bush on it is
not a half section on the prairie after
all, Chris is not the first one to come
back and own up that he was sorry
they left.

One yard put in at 39 bushels per
acre, on the Shera place in the last
issue should have been 28 bushels.

Some more farmers in the Craig-
antler district have joined the pool
lately.

We regret to hear that Bill Dank-
worth has sold his farm and moving
away. His health has not been good
lately so he is going to California for
a change of climate.

Some farmers in the district say
they won't have the phone installed
because there is too much local gossip.
Some have been said to hold the line
fifteen minutes while others have been
waiting to put through long distance
calls. The sooner the regulations are
carried out the better for all concern-
ed.
